Check it out in the latest [2021 MMI Journal of Investment Advisory Solutions \(Q1 2021\)](#) beginning on page 124.

Key points include:

- What are the mechanics of tax loss harvesting?
- A better framework for how tax loss harvesting can translate into Tax Alpha via three key components:
 - Tax rate arbitrage
 - Time value of money
 - Future disposal of assets either via gifting, step-up on death or timing of realization
- What are the considerations when implementing a tax loss harvesting program?

We hope our paper contributes to the awareness and understanding of after-tax investing opportunities and considerations, and welcome your inquiries and comments.
